

# Strategic Plan

## 2019 - 2022

### Vision:

New Zealand architects equipped to make the best possible contribution to the built environment.

### Role:

The New Zealand Registered Architects Board registers, reviews and holds architects to account to protect the public.

### Values:

### Outcomes:

#### Greater understanding of the term Registered Architect

- The public understands the difference between "Registered Architects" and architectural designers (Communications Committee to set targets and measures)

#### Effective continuing registration

- Only architects who meet the minimum standard gain continuing registration (Registration Committee to set targets and measures)

#### Agile initial registration for current practice and future generations

- Applicants apply for initial registration as soon as is appropriate
- Procedures are agile and aligned to the current practice of architecture (Registration Committee to set targets and measures)

#### Effective and efficient complaints procedures

- Complaints dealt with in a proportionate, timely, fair, user-friendly manner (Public Protection Committee to set targets and measures)

#### Strong relationships with key stakeholders

- A trusted and respected regulatory body
- Stakeholders well informed (Communications Committee to set targets and measures)

#### Best practice governance

- The Government is confident that the NZRAB is well governed (Executive Committee to set targets and measures)
